## EDB Community 360 Plan Production

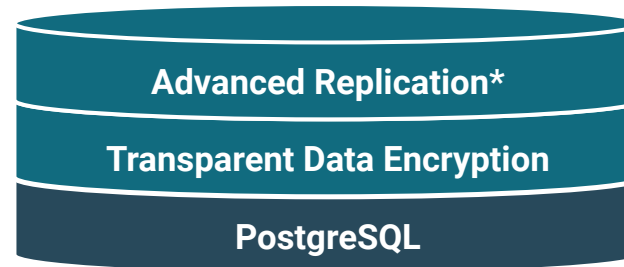

Protect PostgreSQL with EDB expert support.

- Open source tools
- Community PostgreSQL
- EDB & community support
- Cloudnativepg Kubernetes operator

## EDB Standard Plan Production or Premium

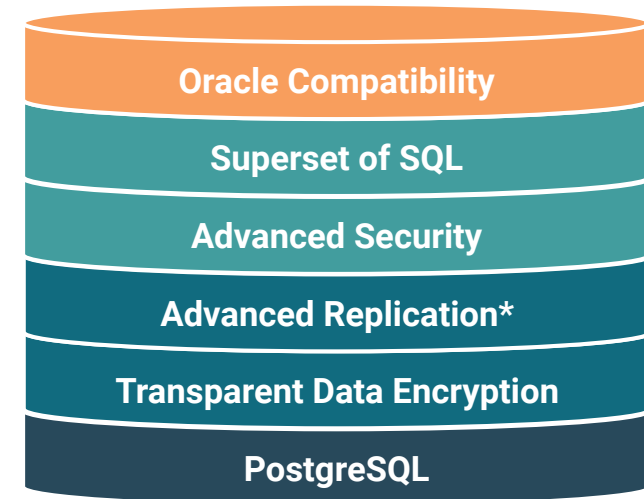

Strengthen and extend PostgreSQL with enhanced security, resiliency, reliability, and optimization.

- Open source tools
- Community PostgreSQL
- EDB & community support
- EDB Postgres for Kubernetes
- EDB tools & extensions – including PEM
- EDB Postgres Distributed Add-on\*
- EDB Postgres Advanced Server

## EDB Enterprise Plan (EPAS) Production or Premium

Migrate costly Oracle workloads to Postgres or elevate Postgres to enterprise-grade with advanced security, reliability, and much more.

- Open source tools
- Community PostgreSQL
- EDB & community support
- EDB Postgres for Kubernetes
- EDB tools & extensions – including PEM
- EDB Postgres Distributed Add-on\*
- EDB Postgres Advanced Server

# Fight the lock-in

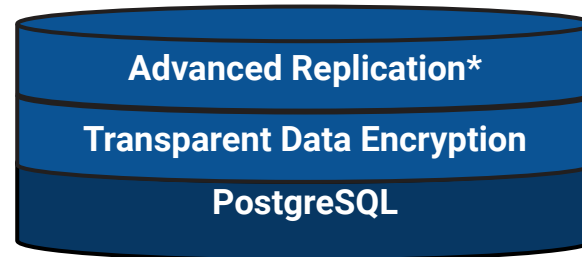

## EDB Community 360

- Open source tools
- Community PostgreSQL
- EDB & community support
- Cloudnativepg Kubernetes operator

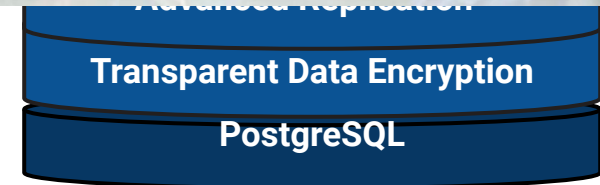

## EDB Standard Plan
