Notes:

[1] Entitlement to the sofware is not included with the subscription plan if the Support Level is blank. The Community 360 plan does not include entitlements to any proprietary software and has been intentionally left blank.

[2] Includes all the extensions and loadable modules found at https://www.postgresql.org/docs/current/contrib.html based on software version

[3] EDB Slony is no longer supported beginning with EDB Postgres Advanced Server v14 and PostgreSQL v14

[4] StackbuiderPlus is only distributed and needed when utilizing one-click installers; not a standalone tool

[5] High Availability Routing for Postgres is no longer supported beginning with EDB Postgres Distributed v 5

Definitions:

Guidance & Advice: EDB will provide insight and guidance for the product as it is understood per EDB's knowledge of the documented behavior and functionality of the software.

Troubleshooting: EDB will provide insight, guidance and troubleshooting for the software on approved OS platforms and versions designated at https://www.enterprisedb.com/product-compatibility

Break/Fix: EDB will provide insight, guidance, troubleshooting, and where possible, a technical workaround as it pertains to the software if necessary, as it relates to functionality and behavior within the official software documentation, on approved OS platforms and versions as designated at https://www.enterprisedb.com/product-compatibility A workaround may consist of technical steps, a software patch or build, however EDB provides no guarantee that any code changes will persist or be maintained in the main open source project.

Build related Notes:

[1] BART will not be supported for v14 and beyond.

[2] From pgAgent 4.0 onwards , we are now building from community source. Prior versions have local edb repository.

[3] zypp not covered as there are inconsistencies all across (e.g. there is 9.6/11/12 but no v10 and v13)

[4] Cloud Native BDR Operator will be available beginning with the release of BDR 3.7

[5] KP deleted pgAdmin and pgAgent because there are no source difference from community
